Town Records – copied with many errors

First entry in 1635 + probably error for 1638 "or later" – about dwelling in town 4 years, or his lots to return to town –
Every man must build on his lot in 12 months, or it is to return.
Every man to have a ladder to reach to the top of his house.

Guard. A guard of ... men with arms & 2 shots of powder & shot to attend at every public meeting for religious use, – one to be kept out as a sentinel – guard to have seats near meeting house door, & be freed from loading.

Bridge over brook leading to mill – Thos. Scott to keep it in repair 4 or 5 yr a year allowed.

Jan 1. 1638 [1639] Orders about Townsmen – to have power to order common occasions, but not to receive new inhabitants nor make levies, nor grant lands, nor alter highways, &c "without the approbation of the body" shall meet as often as once in 14 days.

First real entry is a list of the names of the settlers & the acres of land assigned to each – many names defaced. & the acres of others torn off.

John Haynes	160 acres.	George Wyllys	150.	Wm Adams	30.
Edward Hopkins	120 "	Matthew Allen	110	Saml Wakeman	30
Thomas Wells	100 "	John Webster	96	Richard Lyman	30
John Talcott	90 "	Andrew Warner	84	Wm Butler	28
Thomas Hooker	80 "	Wm Pantry	80	G. Willterton	28
Wm Westwood	80 "	James Olmsted	70	And. Bacon	25
Thos Horner	60 "	Wm Wadsworth	52	Rich Goodman	26

John Moody	40 "	Wm Lewis	38	Th. Bracewood	26
William Rusco	32 "	Timothy Stanly	32	Rev. Adams	30
Jonathan Ince	30 "	Richard Webb	30		

So it continued to reduce the quantity, but more than half have lost the figures once attached to their names, – about 90 names

These are added after with only from 3 to 6 acres each. at that time
Thomas Woodford, Ralph Keeler, Thomas Lord Jr. Thos Barnes
John Punchere, Wm Phillips, Nicholas Disborough, Benj. Burr

Nathaniel Barding, John Sabeck, Richard Watts
Wm Westley, John Holloway, John Biddell, Nath. Calamy (Kellogg)
Robt Wade, Henry Wakely, Thomas Upson, Widow Betts Com.

first name above are the 95 named – see forward & not the same against names – Some alterations. That forward is later than this.
Those poss. 3 to 6 acres are probably of the 41 – see forward

No first entry is above Jan 1638-9. Next is Nov 1639 on next page.

In 1671–2 Feb. a list of proprietors & the proportion of each was made out, 72 in number, (See back), the sums amounting to 3109£. This proportion was said to be according to rule adopted & recorded on town book on the 3 January 1639–

1672. 3 Jany. Voted to divide 1½ mile wide across the whole of the west end of the township, next to Farmington. The rest of Common land East of this mile & half to remain common forever for the use of the inhabitants.

Committee appointed to lay out — to begin at No 1. next to Windsor and proceed S. with the 72 numbers

The laying out was done 1674 — in 67 numbers (4 No. 6 with in one case) — to every £ was laid out half a rod in width 480 rods long — or every pound in the list drew 1½ acres — as Stephen Hopkins had 24£ — & had 12 rods wide or 36 acres — John Pantry had 80£ — & drew 40 rods wide or 120 acres — so of the rest. This would extend only 1500 or 1600 rods, leaving a parcel next to Wethersfield bounds

The rest was divided into 5 tiers — 3 tiers had lots 100 rods long each one tier 90 rods and one 80 rods long — all 470 rods being 10 rods for — 1st Tier had 9 lots [80 by 21] — 2d had 6 lots [90 by 30] — 3d tier had 7 lots [100 by 25] — 4th tier had 6 lot, [100 by 25] — 5th tier had 4 lots [100 by 32. 4 lots]

A few lots were wider — These 5 tiers were 300 rods long & over

There were highways in all the divisions.

67 names left to who had lands in short tiers, viz. James Steele
5 Daniel Arnold, John Day, Richard Goodman, and
72 Thurston & Ed Caldwell for Edward Stebbing.

East tier was 80 rods wide, or lots were 80 rods long — John Day had north lot, 64 rods wide by 80 — next Thos Watts, Andrew Benton sr Andrew Benton Jr Wm Goodwin, Joseph Collier, Alex Douglas Rob Shurly John Wyand had each 21 rods wide, & John Wyand 24 rods wide next to Wethersfield — width of 9 lots 235 rods

2d Tier. was 90 rods wide or lots 90 long — James Steele 80 rods wide by 90 Johnsey men 30. Thos Clark 30. Jos Gaylord 30. John Bigelow 30 & Paul. to Wethersfield bounds, 18 acres [235 rods, calling 18 a. 35 rods wide]

3d Tier John Wilson 64 by 100 — Daniel Arnold (sold Philip Davis) 25 by 100. John Cole 25. Jos Smith sr 25. Jos. Smith jr 25 Samuel Steele 25, John Shephard to Wth. bounds 17 acres

4th Tier. Edward Caldwell 64 by 100 — John Mitchel 28. John Mason 28 Richard Gilman 28. Obadiah Spencer 28. John Hally to Wethersfield 28

5 Tier Richard Goodman 82 E end 46 West end, by 100 long. John Skinner 32 John Camp 32 by 100 Thos Burnam to W. 32.

Highway to Farmington was on N. of these short tiers, and S of the long lots 4 lots next to Windsor, or No 1. 2. 3. 4 were much wider at West than at E end.

PS. The 72 names include only those who had [illegible] or their heirs & assigns, viz 95 [illegible] Those in the Tiers, except 5, were the "commonalty" men or their successors. viz 41 — — —

Names with others in panel of meeting House.

Tuesday Aug. 16. Started from Hartford with wife, son Jacob W. & his wife, in a two horse carriage. Mr. Kellogg of Hartford & Rev. Mr. Tracy in company in another carriage. Went on middle road, via the straight turnpike — most of the way on the skirts of towns. Passed through Berlin & Meriden villages & no others — left Wallingford in sight to the east — also North Haven. Went west of the East rock. Good land most of the way, but the soil more sandy & broken towards New Haven. The farm houses do not appear so well as they ought, though some are quite neat. Reached New Haven about half past two P.M. — went to Mrs. Ferris's in Chapel Street, to a place Sylvester had engaged for us. — found an intelligent English family there, of the name of Sunstead. Found Parkman there — he went down the day before — had been examined & passed for college. To be more correct, Parkman found us, & guided us to Mrs. Ferris. Sylvester came sometime after.

Wednesday Aug. 17. Commencement. Conducted the ladies to the meeting house a little after 8 o'clock — about an hour after went ourselves that is, J. W. & C. P. with Mr Sunstead & Solomon Strong of N. H. Got a good seat in gallery by aid of a paper from Sylvester. Heard the orations &c. including Sylvester's, and remained till forenoon exercises were concluded. Did not go to commencement in afternoon. J. Walker carried us all about the city & suburbs in his carriage, & this took up most of the afternoon. Sylvester occupied at college.

Thursday Aug. 18. I called at Timothy Dwight's house & store, and we all with Solomon Strong & his sister Julia & Mr. Cook of Northampton went with Sylvester & visited the mineralogical and geological cabinet, or museum of the college, and the Trumbull Paintings, &c. In the afternoon we visited a collection of birds &c. and the burying ground.

Friday Aug. 19. It rained & J. W., his wife, his son & Parkman did not start till towards noon, for Hartford. I spent the forenoon chiefly in the Town Clerk's office & Register of Probate's office in the State house. Had a walk & talk with Sylvester after the others had gone. Got ready to start for Waterbury at one o'clock.

I left Newhaven for Waterbury between 1 & 2 o'clock P.M. Friday Aug. 19. 1836, in the stage - 22 miles. We went round the West Rock, & then up a valley, having the West rock range on the east & high land on the west. The West Rock range continues for miles to exhibit the bare, perpendicular rock, in many places, though the greater part of the mountain has some trees upon it. After proceeding some miles up the valley we rose by degrees up the highlands on the west, & crossed over to the Naugatuck river & proceeded up that valley, to the city village of Salem in Waterbury, & thence followed the Naugatuck up to Waterbury village.

The appearance of Hotchkisstown, or Westville, in Newhaven, near the West Rock, and of most of the buildings on the route indicated unmending, and a want of comfort & convenience. The people are behind the age in many respects. The soil is hard, & indifferent. Granite rocks & stones are plenty; brakes & ferns are plenty in some places, & the appearance is but little if any better than that of Westhampton land. The land improves about Waterbury, but even here it is hard, & stony, & shallow soil. that is, the uplands. The meadow I have not seen, but it cannot be very rich.

Waterbury Street or Square, where the ancient settlement was first made runs East & West; & the buildings on this, & on every other road that I have seen, are new, and one would not suspect that the place had been settled 150 years. Very few old buildings are to be seen in any part of the village. There are 4 meeting houses - Congregational Episcopal, Baptist, & Methodist. Taverns are quite rummy - & the temperance reformation seems to have made less progress in this part of the State, than in Hampshire County, though the greater part of the population are strictly temperate.

Friday evening I visited Judge Brunson - talked about ancient affairs, & borrowed his records. - Came back to Barton's tavern & wrote till after midnight -

Saturday Aug. 20. Was at Judge Brunson's & Town Clerk's office most of the day. Visited burying ground. Found the grave stone of Deac. Thomas Judd who died 1747.

Sunday Aug. 21. Went to meeting in Congregational meeting house all day. A promising young man preached. Respectable congregation. No settled minister. In the evening, I visited Judge King & Brunson with Mr Burton.

Capt. Wm. Judd built a small house for son Elnathan — now standing. Elnathan's son Richards lived in it. Elnathan lived in it a while. Elnathan had a shop — failed. Though he failed, some property was saved by some means. His family lived in Capt. Wm. Judd's house some years. He's son Dr. Elnathan sold some land, & removed to Clinton N.Y. about 40 years ago with his mother & some sisters. They carried some property with them

First meeting house in Westbury was in present burying ground. First Epis. church was in highway by the side of burying ground. Meeting house was built on the hill about 60 years ago, the road leading east was then made. Epis. church built on hill about 40 yrs ago.

Waterbury. Burying yard.

This contains but few ancient monuments.

Of the family of Judd, I found none older than those of Deac. Thomas Judd & his wife. The inscription on his stone is as follows:—

"Here lies
the body of
Thomas Judd, Esq.
this first { Justice, Deacon & Captain
in Waterbury,
who died Jan.y
ye 4th A.D. 1747
aged 79."

His wife's (Sarah) stone has only the usual inscription. It states that "Sarah Judd wife of Deac. Thomas Judd, dyed Sept. 8. 1738, in the 69th year of her age".

There is a tombstone for John Judd who died May 11. 1797 aged 98

On foot stone "T. J. Esq. 1747."

Near Thos. Judd's is a stone "S.E. Nov. 3. 1725" or 6.

A Thomas Judd is called "Deacon" in W. on Probate 1696?, former

Hannah Freeman is mentioned as being Admx on her husband's
2.302 estate, she being now the wife of Robert Porter. It appears that her
daughter Sarah named Thos. Judd, son of Wm. Judd.

1836.

Monday Aug. 22. Had conversation with Samuel Hawkins Esq with Judge Bennet Barrison — with Doct. Daniel Porter (aged 30) a descendant of Daniel Porter. Spent some hours with Doct. Porter. He went with me to Scovill's Button Factory, where a large number men & girls are employed in making gilt buttons, plain & figured, & buttons not gilt. I witnessed most of the numerous processes in making buttons. The melted red-hot liquid was turned into molds, making narrow plates say 15 or 18 inches long, 4 to 6 wide & half a 1/4 of an inch in thickness. These plates are then rolled down to the proper thickness for buttons between cylinders which are nearly a foot in diameter. Then the buttons are cut out leaving the plates, just like wooden ones from which buttons molds have been cut. Then the buttons are stamped in a mold. The mold gives the figures, letters, or whatever is desired for the outside of the buttons, & gives them the flat, convex or concave shape. The stamp that falls upon the button puts on the letters & every thing that is on the eye side of the button. It falls with power & gives the button any shape desired, in connection with the mold under it. The eyes cut from wire are then applied to their place & fastened there, the solder is then placed around the eye, and being laid on a plate, the buttons are heated, so as to appear red hot. They then undergo various processes — fixing round the eye — fixing the edge, making the sides smooth, enchasing on the outside of figured buttons, &c. They are gilded by dipping them in an amalgam of gold & mercury & quicksilver. & then made smooth & bright. Every thing is done by machinery. Every process upon the button is done in ten instants as it were.

About two O'clock P.M. I paid my bill $3.75 to Mr Burton for 3 days board, & Dr. Porter took me in a one horse waggon & carried me 3 miles west to the edge of Middlebury to the house of a Mr. Benedict, a man 61 years old. We crossed Naugatuck river soon after leaving the village & went up a long hill, & travelled most of the 3 miles over a wretched country — as broken & stony as any in Massachusetts. Mr Benedicts farm is as the first tolerable farm. We left Mr. Benedicts & proceeded nearly north — a little west of north, over a lean soil into bounds of Watertown. The lands began to improve, & Watertown presented the appearance of a fertile country. Dr. Porter turned off to see a patient & left me 1½ miles from Watertown Centre. He charged me nothing. I went the 1½ miles on foot — stopped at burying-ground & viewed the older monuments — reached Bishops Tavern. Had Tea — after this visited the widow of Noah Judd who is almost 100 years old. In the evening visited Mr. son, Cezar Judd, of the S. Hawkins Judd whom I saw at Waterbury. Ascertained where my great-grand father Wm Judd lived.

The house where Capt. Wm. Judd lived was a two story house in the old fashion, & run down to one story in the rear. Elnathan lived in it after his father's death, & his widow & children lived there after his death. After Doct. Elnathan & the family removed to Linton, N.Y. the house had two or three rooms, & there was a quarrel; the house was burnt during the contest, & then no one lived in it. There is now a one story red house on the spot but further east. one or two says it is my grandmother's Capt. Wm. Judd owned land on both sides of the road, which here runs about north & south. On the east, he owned a lot, meadow, & continued on the hill & on the upland to a great distance to the east. He owned on both sides of the road running east, the Gershom Scott on N. He owned the land opposite, on west side of the road, beginning about against his house for south line & extending north I know not how far. This land is closely by the meeting house & center of the town.

Timothy Judd Esq. lived on same road farther north — it was next building north of the Episcopal Church. It has been demolished, & a new one built by Curtis. Stephen & William Judd lived in S.W. part of the town near Round Meadow — had part of this meadow. Wm removed once or twice before he removed to the west. Became reduced.

Tuesday Aug. 23. I went 4½ miles east to visit Mrs. Richards a grand-daughter of Stephen Judd. Her mother was Lydia Judd. She appeared to be a sensible woman, & expressed partiality for the Judds. Ascertained that Daughter of Timothy Judd, Mrs. Skilton, lived 4 or 5 miles north, aged over 80. Had conversation with Eleazar Judd & Benjamin Judd. After dinner went to visit Eleazar Judd's mother again. She will be 97 next spring. Had much talk with Eleazar.

About 2 or 3 o'clock I set out on foot with my baggage for Plymouth Hollow — 5 miles. Found Watertown a dull, quiet place, but, as I should judge, a thriving agricultural town. Most of my route to Plymouth Hollow was through a broken, hilly country — often a kind of defile between high hills. Very little cultivation on the route. About a mile before I reached the Hollow, there were several buildings, & a clock factory now turning into a woolen factory on Naugatuck river. I followed this river in part to the Hollow. Was about 2 hours on the 5 miles.

After taking tea, walked into the burying yard; found that most of the dead bore the name of Blakeslee. I visited an extensive clock factory. Called to see B. F. Judd, a tailor, son of Eleazar Judd of Watertown — found him a pleasant young man.

1836

Wednesday Aug 24. Got up and took breakfast at Plymouth Hollow. Then took stage for Farmington 14 or 15 miles. Ascended the hill & at one mile came to village of Plymouth with Cong. & Ep. meetinghouses. Pretty good land, though stony, & the village appeared thriving, though it has no water power. Continued though a country of good & poor, rough & smooth land came to Terry's clock factory – to a wooden Lock factory, &c. Continued to Bristol though a country not very inviting. Bristol is in a valley, extending far to the south, and has several factories – one of brass clocks. It shows 4 steeples or towers – Congregational, Baptist, Methodist, Episcopal. The latter has not many worshippers. The land became more sandy as we approached Farmington, & we came to a regular pine plain a little west of Farmington Valley. The meadows not very good where we crossed – better to the north & wider. We rose up the hill, crossed the canal, & came into Farmington Street. Sandy on this side the valley also. A mountain or hill runs on the east of Farmington street, & the street has an ascent east of it, and a descent west of it. We reached Farmington about 9 o'clock. I spent 2 or 3 hours in the burying ground & found no early monuments. Very few before 1700 & others few had only initials – not many till 1720 or 1730. Called to Edward Hooker Esq.

In afternoon rode with E. Hooker, to Plainville in Farmington, about 4 miles south of village. Plainville is a village, quite small, on the Canal, & considerable business is done here. The country around for miles is a plain, but in general not a light plain – some of it is however quite sandy. On the east is the range of mountains from East Rock – the same that Farmington street is on. I took some minutes from probate records which were at Plainville. Came back. Mr. Hooker went with me to top of the range west of his house, when Farmington valley presents a most beautiful landscape. Took tea at Mr Hookers. Could not get at town records without a fuss, & so did not look at them.

Thursday Aug 25. Spent all day & evening at Horace Cowles' the town Clerk, examining Farmington Records.

Friday Aug. 26. Spent an hour or two in the morning at Mr Cowles' – then got on top of a stage with 4 others (inside being full) and rode to Hartford – arrived between 11 & 12. Found my wife unwell but better. In afternoon went to Mr Anderson's and conducted Rascilia to J. W's. Took a ride with J.W. & grandson up through Hartford meadow – came out at the 3 mile red house, & returned home.

Sunday Aug 28 Went to Pierce Church. Spent the week at public offices & visiting.

Judea was probably a parish in vicinity of Bethlehem.

This Judd was probably Reuben.

PS. Judea was a Parish in present town of Washington - formerly part of Woodbury.

Mr John Warhams Will, & Widow. Several writings presented as Mr Warham's last will, (the court say Nov. 1670) which have been objected against by Mr Thomas Allyn Mr Return Thong, in behalf of themselves & wives. Hon Capt Dennis Clark in behalf of Mr & Mrs Stoddard of Northampton, they urged reasons to prove the will invalid

The Court examined the subject, & found that Mr Warham had pre-engaged his estate to his 3 daughters by verbal promise. Writings presented as his will are contradictory &c. Court rejected the writings, & divided the estate as follows:-

Mrs Warham to be comfortably maintained from house & land, & after decease, the housing & land to be equally divided to the three Daughters. Mrs. Warham may dispose of her estate that she had when she married Mr W. as she pleases.

Court appointed Tho. Allen, Return Thong, Deac. John Moore & Walter Filer, to take care of estate & provide for Mrs Warham. Date was Nov. 1670.
